

Our nation's veterans and military service men and women are the defenders of our freedom. Ben is committed to standing up for New Mexico's veterans and making sure that our veterans get the benefits they have earned and deserve.

We must honor the sacrifices made by those who have served our country bravely. Taking care of our veterans when they return home is a priority, and Ben is working to ensure that our veterans have access to the critical healthcare services that will ensure their health.

In Congress, Ben will continue to support our veterans by advocating for increased funding of the Veterans Administration -- working towards an Advanced Appropriations System, which will help eliminate some of the Veterans Administration's budgeting burdens and ultimately result in improved quality of healthcare for our veterans. They deserve nothing less.

Ben has held veteran's town halls where he has encouraged veteran's to contact his office if they need help getting benefits. Hundreds of veterans have attended his town halls throughout the district.
